some little hesitation at the opening of business and the best that can be said for it during the first two hours is that it was fairly steady.

But at the expiration of that time the market seemed to have fully digested the stocks which it had been fed for the last two days, and having done so, to be hungrier than ever.

It was not the choice of favorites, the rising ground was localized on Wednesday and Thursday, so that while some stocks show further advances of from 1 to 4 per cent, others dropped and at the close actually show declines from last evening's figures.

The special favorites to-day were St. Paul up to 95% and preferred stock to 115% at 11 1/2, Northwest preferred to 135% at 13 1/2, Lake Shore to 113% at 11 1/2, Michigan Central to 105, Erie to 44% at 44%, and Central and Hudson to 134% at 134%.

On the other hand, the Southwestern list of railway stocks, while better than yesterday's lowest figures, did not rise to the best prices, and the coal shares dragged because they were in full supply at their prices.

Paul, Minneapolis and Manitoba stock made its appearance among the sales at 67 up to 73. Central of Iowa again sold at 80. Western Union was not specially active, but after a decline to 101 it recovered to 102.

The result of the day's business is a general reaction in favor of higher prices, but the "bar" element in the market is reduced to less than a corporal's guard, and a unanimity of sentiment is probable never that the period of a daily rise from 1 to 4 per cent was not indefinitely prolonged without a chance of a sudden reaction from sales to realize profits.

The market closed strong for the general list, although not at the best prices of the afternoon. Government bonds were strong and higher all round. The business at the Bards advanced to \$440,700. The final bids show advances of 3/4 per cent for the 5% and 6% of 1880, and 1/4 per cent for the 6% of 1881, 4 1/2% and 5% are annexed are the closing quotations:
